6 Ooredoo Anniversary

6.1 Description

168. In the month of the anniversary of their account activation with Ooredoo, our customers will be able to claim either additional Nojoom points or extra local data allowance. Specifically:
- 168.1 Customers subscribed to unlimited plans for local data will be able to claim up to 500¹⁴ Nojoom points per each year of tenure of their account with Ooredoo (e.g. if the customer's account was opened in January 2023, in January 2025, the customer will be able to redeem (up to 500 Nojoom points) x (2 years) = up to 1,000 Nojoom points),
- 168.2 Customers subscribed to limited plans for local data will be able to redeem 1 GB of local data per each year of tenure of their account with Ooredoo (e.g. if the customer's account was opened in January 2023, in January 2025, the customer will be able to redeem (1 GB local data) x (2 years) = 2 GB local data).

6.2 Terms and conditions

169. Both Nojoom points and local data can only be claimed through Ooredoo App.
170. The Nojoom points claimed will be credited within 3 days and will be valid for 3 months.

¹⁴ The number of Nojoom points will depend on the customers' average ARPU

171. The claimed local data will be valid for 1 month.

7 Mobile Number Portability

7.1 Porting of mobile number away from Ooredoo

172. Subscriber may port mobile number: The Subscriber may port a mobile number allocated to the Subscriber by Ooredoo to the OLO by requesting the port of that mobile number from the OLO. Not all mobile numbers will be technically capable of being ported.
173. Charges payable as at date of port: The Subscriber cannot port a mobile number to the OLO until all invoiced charges that are outstanding at the time the Subscriber requests the port are fully paid. If charges are outstanding at the time the Subscriber requests a port, Ooredoo will inform the Subscriber of the amount payable and the timeframe in which that payment must be made to avoid the cancellation of the Subscriber's port request.
174. Charges that are owed but which have not been invoiced also payable: The Subscriber must pay all charges that have been incurred by the Subscriber but which have not been invoiced by Ooredoo as at the date of the port, including any early contract termination fees. Ooredoo will issue the Subscriber with a final invoice in respect of those charges. If the final invoice is not paid:
- 174.1 within 30 days of the invoice date, Ooredoo may direct the OLO to bar the ability of Users to make outgoing calls (except for calls to emergency service organization numbers and operator service numbers), send SMS, access data services and any other outgoing services using the ported mobile number,
 - 174.2 within 45 days of the invoice date, Ooredoo may direct the OLO to suspend the ability of Users to receive public telecommunications services using the ported mobile number, and
 - 174.3 within 60 days of the invoice date, Ooredoo may direct the OLO to terminate the supply of the public telecommunications services in respect of the ported mobile number. The Subscriber may lose the right to use the ported mobile number if the invoiced charges are not paid within a certain period after the date of termination.
175. Termination: This agreement will automatically terminate on the earlier of:
- 175.1 the date on which all invoiced charges under this agreement (including charges invoiced after the date of porting) are received by Ooredoo; and
 - 175.2 the date that the supply of public mobile telecommunications services to the Subscriber is terminated by the OLO due to non-payment of Ooredoo's outstanding invoices, if applicable.

7.2 Porting of mobile numbers to Ooredoo

176. A Subscriber that ports a mobile number from the OLO to Ooredoo must pay all charges that are owed to the OLO in respect of that ported mobile number, notwithstanding the fact that the Subscriber has ceased to acquire public mobile telecommunications services from the OLO.
177. If the Subscriber does not pay all outstanding charges to the OLO in respect of that ported mobile number:
- 177.1 within 30 days of the invoice date, Ooredoo will, upon request of the OLO, bar the ability of Users to make outgoing calls (except for calls to emergency service organization numbers and operator service numbers), send SMS, access data services and any other outgoing services using the ported mobile number,
 - 177.2 within 45 days of the invoice date, Ooredoo will, upon request of the OLO, suspend the ability of Users to receive public telecommunications services using the ported mobile number, and
 - 177.3 within 60 days of the invoice date, Ooredoo will, upon request of the OLO, terminate the supply of the public telecommunications services in respect of the ported mobile number. The Subscriber may lose the right to use the ported mobile number if the invoiced charges are not paid within a certain period after the date of termination.
178. If the Subscriber requests the porting of a mobile number to Ooredoo and it is subsequently discovered that the port has been made in error, is fraudulent or the Subscriber does not otherwise have the right to port that mobile number to Ooredoo, Ooredoo may take such measures as are necessary to address this issue, including returning the ported number to the original range holder.

8 Service Provider obligations

179. Commencement of Service: The Post-Paid Mobile Service shall commence from the date of service connection activation by Ooredoo.
180. Service Availability and Limits:

 - 180.2 Calls may be interrupted, dropped, refused or limited. Ooredoo will not be liable for any service limits due to these conditions that may arise from time to time, subject to our statutory, license and other obligations.

9 Subscriber obligations

181. Equipment:

181.1 The Subscriber shall comply with any reasonable request by Ooredoo concerning the configuration of their Mobile Device or the use of the Post-Paid Mobile Service.

182. Resale: The Subscriber cannot resell the service if (s)he does not qualify as an Eligible Person, within the framework set by the Class License for the Resale of Retail Telecommunications Services issued by the Communication Regulatory Authority (CRA) (<https://www.cra.gov.qa/en/document/class-license-for-the-resale-of-retail/telecommunications-services>) and without a prior written approval by Ooredoo.
